1 How to set up a Supervised Account

If your child is 13 or older, they might be ready to transition from YouTube Kids to the regular platform. If your child is under 13, see [how to get them set up on YouTube Kids](#).

A Supervised Account helps children learn key online safety skills in safe online spaces.

To create a Supervised Account:

Step 1 – Sign-in to your parent account. If you use [Google Family Link](#), your account will be the same as it is there. Select your **profile** icon.

Step 2 – Select **Settings** and then **Parental settings** in the menu. You will see all users associated with your Google account. **Choose the child** you wish to create a Supervised Account for.

Step 3 – Tick the box next to **YouTube and YouTube Music** then press **NEXT**.
Read the notice and press **SELECT**.

Step 4 – Choose the **content settings** for your child. Then, read the notice and press **SELECT**.

Explore: for those 9+

Explore more: for those 13+

Step 5 – Review the parental controls features, read the **Almost Finished** page and select **FINISH SETUP**.

Your child now has a YouTube Supervised Account.

set up a Supervised Account for your child, you can customise the settings relevant to your child. As they age, you can change the content settings and more to provide them with more freedom to explore their online space, helping them practise key online safety skills.

To update parental controls:

Step 1 – Sign-in to your YouTube account. Select your **profile** icon and **Settings**.

Step 2 – In the **menu**, select **Parental settings** to see users. Choose the **child** you'd like to update parental controls for.

Step 3 – On their profile, you can do the following:

Update content settings

You change change the content levels to Explore (under-13s), Explore More (13+) or Most of YouTube (almost all content). Change this as your child grows.

autoplay, watch history and search history. These features reduce how much content children are likely to watch. For instance, turning off autoplay helps them move on after watching one video instead of falling into the habit of watching one video after another.

Monitoring your child's YouTube activity means you gain insight into how they use their online time. You can use this as an opportunity to discuss and learn about their favourite creators. This creates a space of trust and openness while also helping you keep an eye out for any harmful content.

To monitor YouTube activity:

Step 1 – Sign-in with **your child's account** that you set up and select their **profile** icon.

Step 2 – Go to **Settings** and then **History and privacy**. In this menu, go to **Manage all activity**.

Step 3 – Here, you can see account's history. If this feature gets turned off, your parent account will be notified.

④ How to turn on Restricted Mode

YouTube's restricted mode can help filter out mature content that poses potential harm to your child. Setting up restricted mode can help keep children safe online.

To set up restricted mode in the YouTube app:

Step 1 – Sign-in to the YouTube app and navigate to **Settings** by tapping your **profile** icon.

Step 2 – In the **settings** menu, tap **General**. Next to **Restricted Mode**, tap the **toggle**. Blue means restricted mode is on.

To set up restricted mode on the YouTube website:

Step 1 – Sign-in to YouTube.com and click your profile icon.

5 How to delete a YouTube channel

If you or your child wants to delete their channel, you must use the web browser.

To delete a YouTube channel:

Step 1 – Go to the **YouTube website**, click on your **profile** and click **YouTube Studio**.

Step 2 – In the left menu, click **Settings**, then **Channel > Advanced settings**.

Step 3 – Scroll down to the **bottom** and click **Remove YouTube content**.

When prompted, select **I want to permanently delete my content**. Follow the instructions and then confirm by selecting **Delete my content**.
